

# AIMING HIGH @ SMITHILLS SCHOOL

What do I need to do NOW to progress my Career

## Year 9

- Continue to explore your career options and aspirations for the future.
- You will be asked to choose more options that you will study through to year 11.
- Research careers available in the subject areas you are choosing to study using online resources. There are links from the careers section of the Smithills School website - Use kudos or Start.
- Take part in any university or college visits, taster days or other events that will help you develop greater understanding of specific careers or help you develop employability skills.
- Are there any opportunities for you to do some voluntary work either at school or in the community?
- Remember the more you do now the more you will have to record on your CV later to make you stand out from the crowd!
- Keep certificates safe for your record of achievement folder.
